

PARTNERS:

DIBBAUG

- Durmishidze Institute of Biochemistry and Biotechnology of Agrarian University of Georgia

Reinforcing Georgian International Cooperation Capacities in the Field of Food and Biotechnologies

BIOPARTNERS is an EU funded Support Action aiming to stimulate cooperation between Europe and Georgia in the field of Biotechnology.

The **BIOPARTNERS** project mission has four objectives:

- Map and assess the strengths, weakness and collaboration potential and prepare DIBBAUG to the new step in its strategic development
- Set up and implement an ambitious winning programme
- Develop DIBBAUG's cooperation capacities
- Organise international events information, training, networking & brokerage and dissemination

Project Coordinator

Name: Giorgi Kvesitadze
Email: kvesitadze@hotmail.com
Website: biopartners-dibb.ge

Duration: 36 months

Start: 2012.01.01

Inno-TSD (France)

UNIVERSIDAD DE MURCIA

UMU- University of Murcia (Spain)

Project will include several main types of activities, thus forming a coherent plan for improving the DIBBAUG' capacities in a number of fields relevant to the FP7 Thematic Priority —

Food, Agriculture & Fisheries, and Biotechnologies.

Twinning activities, based on the joint research plan to be prepared and implemented jointly by DIBBAUG and its European partner, Universidad of Murcia.

Larger-scale networking & brokerage activities,

which will be implemented on wide European and regional level, thus involving other European and regional organisations, thus extending the project impact. University of Murcia is pleased to open its scientific networks in Europe for the Georgian twinned partner.

Exchange of researchers and young specialists and organisation of joint event.

Training and coaching activities, that will aim to increase DIBBAUG understanding of FP7, build competences and enhance the Institute's participation in FP7 with different European research consortia. Reviews will be regularly organised by the high level S&T and policy specialists.
